Determining the Dominant Aggressor in Domestic Violence Cases

February 7, 8 AM to 12 PM

This part of the course begins with a firsthand account of Albert Grieve, the Children's Division Legal Aspects Trainer, an attorney and former law enforcement officer who grew up in an abusive home. Albert will share the dynamics of abuse, various aspects of coercive control which affect the systems response, highlight other points such as the importance of an accurate determination of the dominant aggressor, nuances to watch for, the importance of appropriate interview tactics, and emphasize the positive and negative impacts of both intervention and missed opportunities to intervene.

The balance of the afternoon includes more on the dynamic of family violence, exploring why true victims might report using force and creative ways to make a determination of the relevant context and the dominant aggressor in an abusive relationship, as well as outlining basic Missouri laws in determining valid claims of self defense/ primary aggressor. This course also offers more refined nuances & tools to shed light on these difficult cases.

The course is certified for 1 hour of POST Continuing Education Legal credits & 3 hours Interpersonal Credit by the Missouri Department of Public Safety POST program or 4 hours of CLE by the Missouri Bar.
